## Fast rendering

Generate screenshots in a matter of seconds. Never busy, so there's no waiting in line. Rendering starts immediately and is finished quickly.

## Accurate screenshots

Using two different rendering techniques, we ensure that the screenshots and website thumbnails are always generated properly. If one method fails, the second always succeeds.

description	How much time disappears during the day without you noticing? Not hours — minutes. Looking something up. Waiting for confirmation. Rechecking the same detail again. Small pauses add up and quietly slow everything down. Modern technology isn't about doing more. It's about keeping things moving, when decisions don't stall, when routine actions flow without interruptions. [⋮]
